Understanding your interest

- Your interest rates:** your simple standard and cash interest rates will move up and down in line with changes to the Bank of England Base Rate. Base Rate changes will not apply to your promotional and purchase plan interest rates
- Simple interest:** we work out how much interest we charge each month using a simple interest rate
- Compound interest:** we also show you the compound equivalent as it takes account of interest you will pay on interest if you do not repay your total outstanding balance in full each month. This rate may be the most comparable to rates you see offered by other credit cards.
- Estimated interest:** this is an estimate of next month's interest based on your minimum payment reaching us on the payment due date. The actual amount of interest you pay may be less or more depending on when your payment reaches us, the amount you repay and whether you use your card.
- For more information, interest calculator and more,** go to barclaycard.co.uk/understanding-interest or see the **How it works** section on this statement.

Your current balance is made up of:
